Bid Description

The chip server features rounded corners and is constructed of brushed (#4) stainless steel, durable black ABS plastic lid, and tempered glass. A deflector and drop panel door make serving easy. Merchandising graphics are on all four sides. Unit features incandescent lighting to enhance chip appearance in display. Chip capacity is 8-10 pounds (3.6 -4.5 kg).

The bottom-mounted, 28 watt heating element keeps chips crisp. Power is controlled with an ON/OFF rocker switch.

Standard Features

Stainless steel, ABS plastic, and tempered glass construction

Holds 8-10 pounds (3.6-4.5 kg) of chips

Thermostat is preset for convenience

Low-watt heating element keeps chips crisp

Lift-off ABS plastic lid ensures hassle-free loading

Merchandising graphics on all four sides permit front and back counter use

Drop panel door allows easy access to chips and promotes chip rotation

Warranty

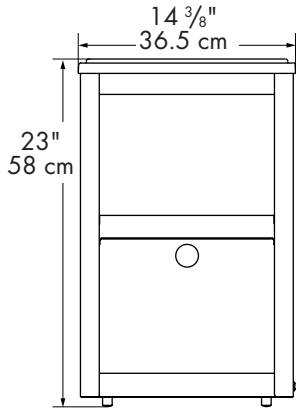

Server Products equipment is backed by a two-year limited warranty against defects in materials and workmanship. For a copy of our complete warranty statement, see our web site or contact us.
