

Conventional Posts & Ropes

Classic design and construction that lasts for years.

The classic post and rope configuration brings back the elegance and nostalgia of years past. With a durable tie-rod construction, you can be sure these posts represent true American quality standards. The graceful swag of the ropes are a result of the tightly woven core, which is wrapped in the highest grade of naugahyde or velour. These American classics have literally created **the line for distinguished applications.**
