

Little Snowie™ Ice Shaver

Paragon now has Little Snowie™!

Turn ordinary ice cubes from your freezer into Snowie™ shaved ice instantly. The ultimate shaved ice treats every day—No blender or processor will come close to producing the snow this little worker puts out. Shaved ice as it should be! Great product for small parties, fundraisers, RV's and boats, family reunions, birthdays, camping trips or just a hot summer's day. Electric motor shaves cup after cup of fluffy snow. Intended for home use. Light-weight and easy to use. It may be small, but the quality of the snow is the same as with it's big brothers. Snowie™ power, but household affordability.

Features:

- Heavy Duty commercial motor
- Built in cone-topper to pack and shape a perfect cone effortlessly
- Shaves a 16 oz serving in seconds
- Usage recommended up to 30 shaved ice servings per day
- Exclusive Snowie blade design - lasts about 5,000 servings
- 1 year warranty

Plus, FREE Little Snowie™ Kit comes with every machine!

Every Little Snowie ships with the following items:

- 4 four oz. concentrates (makes 4 gallons of syrup)
- 4 ready to use syrup pints
- 4 pour spouts (for serving bottles)
- 4 dust caps (for serving bottles)
- 4 flip top caps (for concentrates)
- 4 extra lids

PARAGON

All machines NSF approved

Features

When we decided to add shaved ice equipment to our product lines we researched the market and found a great little company in Utah that manufactures the finest equipment available. Their quality and price are unbeatable so we asked [Snowie](#) if they would private label equipment for us. We are honored that they said yes.

'Snowie has over 20 years in perfecting their product and they continue improving it everyday.'

We think the above statement understates what the Snowie product represents. Snowie's owners don't just build equipment, they use all their product everyday in concession activities. This is why they build the best—they have solved the problems with ice equipment by working it in the field. When your customer buys this equipment, they are getting a product with the most intensive and realistic 20 years of research and development.

- Simply the fastest, easiest to use, and most reliable shavers available.
- Designed to produce consistent "as close to nature as possible" snow.
- Use regular cubed or chopped ice - forget heavy, hard to use block shavers.
- Patented cone topper design produces, packs, and shapes snow in one fast process.
- All models NSF approved with all electrical components UL approved.
- Superior design over cabinet style shavers that often result in soggy, inferior servings

Little Snowie™ Accessories

Drip Tray

Holds your Little Snowie™ in place, helps prevent spillage, catches drips and helps protect the underlying surface. Vacuum formed plastic. Perfect fit.

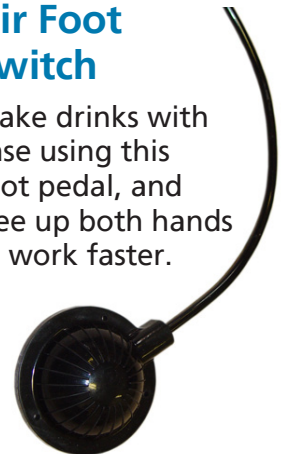

Blade Set

Replacement blade for the Little Snowie™ lasts about 5,000 servings.

Air Foot Switch

Make drinks with ease using this foot pedal, and free up both hands to work faster.
